	• Backend:	REST APIs, Firebase
	• Tools:	GitHub, Vercel, CI/CD, VS Code, Figma, Postman, Swagger
	• Analytics:	Google Analytics, Mixpanel, Firebase Analytics
Soft Skills	Problem-solving, Team Collaboration, Adaptability, Agile Development	
Languages	Hindi (Native), English (Professional)	

## EXPERIENCE

---

<b>Application Developer</b> NPrep EdTech	Dec 2024 - Present <i>Jodhpur, Rajasthan</i>
--	---

- Developed scalable web-compatible app using Flutter, achieving 40% higher downloads (15% above projections)
- Optimized video streaming (mp4 to m3u8 conversion) resulting in 35% efficiency gain and reduced buffering
- Implemented GetX architecture to revamp UI, boosting user engagement by 50% and scaling DAU from 1K to 1.5K

<b>Open Source Contributor</b> GirlScript Summer of Code (GSSoC)	Oct 2024 - Nov 2024 <i>Remote</i>
---	--------------------------------------

- Developed responsive e-commerce features using JavaScript and Bootstrap 5 with REST API integration
- Enhanced cross-browser compatibility with HTML, CSS, and JavaScript, adding social media and feedback systems to boost engagement.
- Collaborated with mentors to refine code and workflows, delivering stable web solutions under tight deadlines

<b>Application Developer</b> Second Brain Ventures	Jun 2024 - Sep 2024 <i>Noida, UP</i>
---	---

- Converted Figma designs to responsive Flutter interfaces with REST API integration
- Resolved 50+ QA tickets for pixel-perfect UI delivery across Android/iOS platforms
- Implemented Provider state management, improving app performance by 25%

## PROJECTS

---

<b>NPrep Mobile Application</b>	<i>Dec 2024 - Present</i>
---------------------------------	---------------------------

- Developed and enhanced an educational mobile platform for nursing aspirants using Flutter and Firebase, achieving over 25,000 monthly active users within three months.
- Implemented key features including a submission section with resolved multi-section skip issues, a solution screen with corrected index errors, and a video section with updated PDF view logic to improve visibility.
- Optimized performance by addressing counter timer speed issues, fixing app exit functionality, and eliminating transaction API call duplications.

- Enhanced search functionality with improved pro condition logic and implemented coupon code application logic to boost user engagement.
- Updated rank screen to display percentiles instead of points and resolved HTML-rendered table display issues for accurate data presentation.

### **HimFlix OTT App**

*Jan 2024 - Aug 2024*

- Integrated Google Analytics & Mixpanel tracking 15K+ user sessions monthly
- Developed Branch.io referral system increasing user acquisition by 28%
- Created Figma-based UI reducing development time by 30%

### **Waterpark Admin App**

*May 2023 - Jul 2023*

- Implemented QR-based payment system processing 500+ daily transactions
- Visualized user metrics with Synefusion charts improving decision speed by 40%
